◆ The Opportunity

Invest in a market *with proven momentum.*

Batumi is one of Europe's fastest-growing cities — a Black Sea capital where property values, tourism and international investment are all compounding at the same time, from a base that most European coastal markets passed decades ago.

Often called the “Las Vegas of Europe,” the city blends a thriving casino industry, luxury hospitality, beachfront living and year-round entertainment. Georgia's tourism sector now welcomes more than seven million international visitors a year, with Batumi drawing capital from Europe, Turkey, the Gulf and Central Asia — and the infrastructure to match.

What makes Batumi unique is the rare combination of strong fundamentals and early-stage market positioning.
